Druid Hill Park Pool Project: Community Feedback

#	RESPONSES	DATE
1	Please do not add in a parking lot with first not making that street a bus route and improving the sidewalks from the madison arch entrance to the pool. Every year I witness teens and younger children walk miles from their neighborhood to the pool. Make it accessible first to those who don't have cars.	2/21/2020 8:31 AM
2	This is a horrible idea. instead of paving the precious Green space we have in this city, we should be making it safer and easier for neighborhoods around the park to get to it safely by bike or on foot. please don't make life worse for the families nearby because of a parks and rec oversight.	2/21/2020 8:03 AM
3	We don't need more concrete. Conserve nature.	2/21/2020 7:50 AM
4	I think before dollars are invested in parking in this way we need to go through the renovations and evaluate need for more parking once changes occur. Minimizing greenspace lost in the city should be prioritized.	2/21/2020 6:14 AM
5	Honestly, it seems fine. The impact is pretty minimal.	2/20/2020 10:21 PM
6	Please make the effort to get feedback from a wide variety of people that's reflects the views of those that regularly use and appreciate the park and not just those whose interests and loyalties lie with further "development" of Baltimore.	2/20/2020 9:04 PM
7	I really don't think there needs to be more parking in the park. Never had trouble finding parking and more parking means that more cars will come, its already dangerous enough with cars speeding around and through the park. Lets encourage alternative forms of transportation to the pool, like more biking or walking or bus riding. Can this parking lot money go towards a bike lane to make it safer biking there? Or a shuttle? Anything but more concrete! Keep Druid Hill Green!	2/20/2020 8:54 PM
8	I am all for making improvements to the pool, but opposed to additional parking. Adding connectivity in the public transit system between Mondawmin and Woodberry through the park could greatly improve the accessibility of the Pool, the Zoo, and the Conservatory, it would also allow les cars to be driven to large events that take place at the pool a few times a year. In general, I'd like to see our public representatives working to make Baltimore great for its citizens today, not prioritize suburbanizing it in hopes of attracting a different kind of citizen.	2/20/2020 5:26 PM
9	I don't believe there needs to be any more parking in the Druid Hill Park- there is plenty of parking there already! Keep the pool as it is, please!	2/20/2020 4:51 PM
10	Don't need more pavement in the park	2/20/2020 4:31 PM
11	Parking is abundant and close by. The open green space is what makes the park great and a sight for sore eyes. You don't need to pave more of the city.	2/20/2020 4:12 PM
12	There is plenty of street parking. I've never had a problem, even on Saturdays	2/20/2020 1:58 PM
13	Please admit that the project WILL NOT start by the 2020 swimming season and allow people and group to plan to use the pool this summer. Also, I'm sure with enough creative planning, the renovation can be completed while only taking out ONE swimming season...instead of TWO! Start immediately in September 2020 and be finished by June 2022...in time to ribbon cut for the 2022 swimming season. Thank you taking my request seriously and respectfully. Carol Bishop	2/20/2020 1:22 PM
14	The area can be graded in accordance with BEP (best civil engineer practices and seeded and planted but not topped for parking so much ado for 64 spaces . I did not see one HC space or aisle. It should only be used as a drop off for the elderly the disabled. Employ an Arborist to Supervise so that no trees or Oriole Habits are lost.	2/20/2020 11:31 AM
15	The parking lot threatens wildlife in the park, including Orioles known to nest in the proposed parking lot area. In a time where we are facing climate change and seeing frightening changes in plant and animal populations, we need to develop the city in an environmentally responsible way. Cutting down trees and paving over the soil is not the way to go. Rather than building a parking lot, the city should increase public transit options within the park. It may be a small area, but it is representative of a larger problem. We need to envision a future in which individually owned cars are not the only way to travel around Baltimore. This can start with the city encouraging people to use transit, and adding bus routes that enter the park. Cities all over the world have major parks that are accessible by public transit—why can't we?	2/20/2020 11:18 AM

Druid Hill Park Pool Project: Community Feedback

16	Parks should actively work to provide more greenspace and transit connectivity, not prioritize cars and parking. Please consider realigning this development plan with the value of park in our cities to increase connectivity to community and nature.	2/20/2020 11:02 AM
17	I have never had any issues with finding parking at Druid Hill Park. I feel adding a parking lot is unnecessary and takes away vital greenspace that is already limited in Baltimore.	2/20/2020 11:02 AM
18	Put that money somewhere it's actually needed.	2/20/2020 10:39 AM
19	We should not be encouraging more driving and parking in one of our cities premiere green spaces. Putting in another parking lot in an overly paved city goes against all modern urban planning best practices.	2/20/2020 10:00 AM
20	There is a large 'green' parking lot across from Steiff Silver that could be used. There could be a turnaround near the pool to drop folks off. Discussions with MTA could result in a bus stop in the park (or event 2 stops)	2/20/2020 9:36 AM
21	Rec and Parks belligerent and manipulative attempt to add an unnecessary parking lot in our finest park is outrageous.	2/20/2020 9:35 AM
22	Thorough community stakeholders review of: the actual need and life cycle cost of additional parking, including trends and dispersal throughout the park as addressed by a qualified consultant paid for by a disinterested non-profit.	2/20/2020 9:22 AM
23	I do not support a parking lot. There are other solutions to add parking such as using an overflow lot at the Boy Scouts, creating back in parking on the road and also utilizing the side road by the pool	2/20/2020 9:20 AM
24	Additional parking will ruin the experience of the "park" and take away the natural beauty that I've become accustomed too. Too many renovations.	2/20/2020 8:58 AM
25	This parking lot is a poor use of city funds and caters primarily to residents with cars. Druid Hill park is poorly accessible by public transportation and this lot does nothing to address this issue.	2/20/2020 8:56 AM
26	It's disheartening to hear that you're planning to destroy the park more than what has already been done just for the sake of 'convenience'. People are obese enough as is and need to walk. It's not hard to find parking in the vicinity.	2/20/2020 7:46 AM
27	I think it's a terrible idea to get rid of mature trees and natural space in a PARK for a parking lot. The park has already damaged the ecosystem in the area with the way it handled the the reservoir renovations we don't need more blunders with our tax dollars. It's also clear by the speed at which this is happening that it hasn't taken all the proper steps a city project should be taking. What does the city council think?	2/20/2020 7:33 AM
28	paving a historic parks is kind of a bad use of resources and green space! i have never had an issue finding parking there.	2/20/2020 7:17 AM
29	Druid Hill Park is a very beautiful park and the addition of a parking garage would diminish it instead of enhance it. To make the park more accessible I would like more bike racks and more public transit to/near it. Perhaps even a new circulator route	2/20/2020 7:16 AM
30	Druid Hill Park is a great public resource and could use a lot of things, but a parking lot is generally not on that list for me. A lake would be great to have again though!	2/20/2020 5:47 AM
31	Please don't pave our park. The park should be actively promoting alternative modes of transportation beyond the private automobile. Don't encourage additional car traffic in the park by building a useless parking lot that will sit empty most of the year.	2/19/2020 11:11 PM
32	Plenty of parking. No need for a big new lot	2/19/2020 9:59 PM
33	I visit DHP multiple times per week and drawing more car traffic to it will be a detriment to the park. The loss of the reservoir loop prompted me to try running and walking on East Drive, but the number of cars and the speed they travel make sharing that road unsafe. I have observed that those utilizing the parallel parking on East Drive help calm traffic because cars pulling in and out of spots slows traffic during busy periods of the day. The pool is largely and inordinately busy on the weekends, and the lot(s) that surround the Rec & Parks building are not utilized during the weekends. Direct pool traffic on the weekends to those space. Replacing green space with asphalt for a summer weekend traffic problem is short sighted. The parallel parking spots along East Drive are more than sufficient to accommodate the pool traffic during the	2/19/2020 9:50 PM

Druid Hill Park Pool Project: Community Feedback

week. Moreover, a good number of visitors to the pool do not simply pull into their cars into a parking spot and kill the engine. Because of the restrictions on what one can bring into the pool & the heat in the summer, people let their cars idle while they eat lunch, change clothes, change their diapers, etc. The proposed placement of the parking lot will have dozens of cars idling and spewing car exhaust directly adjacent to those doing aerobic exercise on the tennis courts and using the pedestrian path along East Drive. Obviously, I83 is a concern in this regard as well, but I cannot see why those with oversight of a public park would willingly increase auto exhaust in this area in 2020. As a neighbor and frequent visitor to DHP, I am strongly opposed to the proposed parking lot. On the other hand, I'm excited for the pool renovation and plan to use the pool regularly after the renovation is complete as I have in the past. I'm a mom of 2 young kids, and I've never felt the need to have increased parking around the pool.

34	Please be more transparent. Increase the park space in lieu of parking. This is the 21st century, we don't need more pavement especially funded by the public. Wisen-up.	2/19/2020 9:15 PM
35	There is not research to support taking away green space for parking will make parks more accessible or environmentally friendly. In 2020 I think we should be focusing more on access through public transportation, walking, and cycling rather than driving. This is especially true in a city that has a large percentage of non-car owners such as Baltimore. It seems this plan was proposed based on current park attendees who drive rather than Baltimore City residents who have other barriers to visiting the park.	2/19/2020 9:13 PM
36	I am concerned about the safety of my child around this parking lot. I have never found it difficult to park near the pool with the current parking.	2/19/2020 8:23 PM
37	Parking is not an issue for me because I walk. It may be helpful considering all of the cars parked along the street	2/19/2020 8:12 PM
38	I do not support the addition of a parking lot. Please consider adding bus transit options to connect with the pool and other park amenities.	2/19/2020 7:56 PM
39	I generally use the park for biking/running/ lighted tennis courts but have driven on occasion. I also use Patterson Park quite a bit for the same reasons. In parks I'm there in part to get the freshest air I can, enjoy a little greenery, and have a space to occupy and move freely without looking over my shoulder for vehicles/threats. Additionally parking would encourage more driving at a time where we need to be encouraging alternatives to driving for environmental reasons as well as health reasons in a city with notoriously high rates of asthma and other environmentally exacerbated conditions.	2/19/2020 7:36 PM
40	There is no need for an additional parking lot. Don't pave over more parkland.	2/19/2020 7:32 PM
41	This is a mistake, contrary to your mission, and also a flagrant usurpation of the City Council's authority.	2/19/2020 7:29 PM
42	Make parks car free, don't invite more cars in!	2/19/2020 7:07 PM
43	We do not need this.	2/19/2020 7:04 PM
44	A shuttle from Mondawnin to grant access and build healthy community is a much better idea. Bring us together not a part. Also encourage less emissions and car crowding so that we can all breathe a little easier. Thanks	2/19/2020 7:02 PM
45	What would help with the pool is not allowing unsupervised kids. I stopped going when the only people in the pool were kids with no adults cursing and acting out. It isn't family friendly.	2/19/2020 6:59 PM
46	Please don't put a parking lot in Druid Hill Park, we need less car traffic through the park and more biking/walking	2/19/2020 6:55 PM
47	I love the pool as it is - I know it's good to invest in updates etc but I have to say I'd rather there just be some mild renovations to the pool house and keep the pool open than make big sweeping changes to the structure of the pool. I worry that the changes aren't being made for the people who actually use the pool.	2/19/2020 5:31 PM
48	Please provide alternative options for summer Country club while Druid Hill is under construction	2/19/2020 3:49 PM
49	This parking lot is unnecessary	2/19/2020 3:45 PM
50	In my experience there is not additional parking needed at the pool or park. If the parking lot	2/19/2020 3:04 PM

Druid Hill Park Pool Project: Community Feedback

does go in, I would want it to be small and want to make sure it is not detracting from the park and not replacing nice green space for no reason.

51	I would support a shuttle that goes from the parking lots at Stieff Silver/Boy Scouts, to the pool, playground, zoo, Frisbee golf course and back to reduce the amount of vehicular traffic within the park.	2/19/2020 3:02 PM
52	Accessibility to transit, walking, biking, and neighborhood connections should be prioritized.	2/19/2020 2:53 PM
53	No one ever has trouble finding parking in Druid park unless there is a festival - in which case you aren't allowed to park in the park. This is silly.	2/19/2020 2:41 PM
54	Please don't remove green space! We should be encouraging folks to use other means of transportation. There is already a ton of parking available!	2/19/2020 2:34 PM
55	I look forward to the day when I can walk or bike from my neighborhood over to the new pool!	2/19/2020 2:17 PM
56	Druid Hill Park is already SO car-centric. I don't own a car and I live near by. When I visit the park, I go by bike or I walk. I have to be careful of cars when I am walking around the park or biking. Druid Hill Park has some of my favorite biking trails, but to get to them, I still have to go over the speed limit, cars racing, cars parked in the wrong spots, cars ON BIKE AND PEDESTRIAN TRAILS THAT ARE NOT PARKS AND REC CARS. Adding more parking will just make the park more inaccessible. Instead, could we put the money to make sure the streetlights are on at night? Add more programming for neighbors? Add pool hours? Anything but parking.	2/19/2020 2:06 PM
57	Removing trees and green space for a parking lot is the opposite of what should happen in a park. Neighbors in Patterson park opposed a similar plan and we should be able to do so here also. All other public parks in Baltimore have much less parking than druid hill already has and function just fine.	2/19/2020 1:54 PM
58	I'm concerned about the effect an additional parking lot would have on the beauty and enjoyment of the park, as well as any environmental impact. However, if could be proven that those effects would be small, I think a small parking lot could be a helpful addition to the park.	2/19/2020 1:49 PM
59	Build a parking lot where that open lot is in Reservoir hill with a pedestrian bridge into the park	2/19/2020 1:39 PM
60	Please DO NOT build a parking lot in Druid Hill park! It is not necessary, and it will take away from the city's green space! We should be focusing more on public transit and bikes - not cars.	2/19/2020 1:31 PM
61	Would not like to see an additional parking lot added to Druid Hill Park	2/19/2020 1:27 PM
62	DONT PUT IN A PARKING LOT. One of the reasons why Baltimore is a great city is the large amounts of public parks and green spaces. It boggles my mind why BCRP would want to further reduce said green space in one of the larger, more iconic city parks, in an effort to pave the way for vehicular parking - one of the City's largest pieces of land-use.	2/19/2020 12:48 PM
63	DO NOT add a parking lot! Druid Hill Park does not need any more pavement and it does not need to encourage more car use.	2/19/2020 12:37 PM
64	The addition of a parking lot will degrade the park and put increased pressure on already strained visitors such as walkers and bikers. This is one of the very few safe havens in Baltimore for pedestrians and bikers and the addition of car parking will marginalize these use categories even more.	2/19/2020 12:17 PM
65	Please do NOT pave over historic Druid Hill Park! Baltimore City needs more green areas, not more parking lots. I have never had a problem parking at Druid Hill. NO PARKING LOT FOR DRUID HILL!	2/19/2020 12:15 PM
66	I am often threatened by drivers when biking in Druid Hill Park. Can we please have one place in the city that doesn't prioritize cars? Druid Hill is a park. Building a parking lot will bring more car traffic to a park that already has too much. People who walk and ride bikes in the park are already threatened and made to feel out of place by drivers. This misguided proposal will make things worse. Please don't do this.	2/19/2020 12:11 PM
67	Tearing down more green space for a pool that is used only three months out of the year is ridiculous. You would destroy what makes it lovely year round, animal habitat, trees that are sorely needed for air quality and the original design by Olmsted (you may have already done that.)	2/19/2020 12:05 PM

Druid Hill Park Pool Project: Community Feedback

68	Increasing vehicular traffic at Druid Hill will, no doubt, have a terrible impact on the experience of using one of Baltimore's greatest recreational spaces. In addition to negatively impacting the experience of using the park, it will also greatly impact the safety of those walking and biking through/to the park as increased vehicular traffic poses immediate threats to those people.	2/19/2020 12:04 PM
69	Parking lots, and free parking in general is the opposite of what a City with a Complete Streets plan, or Bike Master Plan should be looking into, planning, or funding in any way. This is a city with very low vehicle access, and very few places to safely bike or walk. Druid Hill park is great because I can somewhat comfortably ride my bike without too many cars being around. If the park creates more space for parking, it will in-turn bring in more vehicular traffic, and make parts of the park unsafe to walk and bike. When looking at free parking/parking lots from a planning perspective, it is a wildly poor use of time, energy, and tax-payer dollars. It directly encourages park-users to drive, literally into the park, whereas many park users do not want additional cars along their running routes or bike paths. Additionally, free parking/parking lots in the park will directly lead to more automobile miles driven in and around Druid Hill. More people will attempt to drive to the park, knowing/thinking there is available space, and should there be no open spots, they will be forced to cruise around the park while their vehicles continue to pollute and wear down Druid Hill. The City, and BCRP need to both look to promote transportation without the personal automobile. Using lots near the park, and introducing a shuttle system would be a far better use of time and money, and potentially add longer-term jobs or employment opportunities for local residents. I would also be interested in the demand for additional parking - what data has BCRP collected that shows a need for additional parking? Have there been any traffic analysis or studies on the impact of adding a parking lot, and how the increase of automobile traffic will affect other road users on the roads connecting to/from Druid Hill? One of the reasons why Baltimore is a great city is the large amounts of public parks and green spaces. It boggles my mind why BCRP would want to further reduce said green space in one of the larger, more iconic city parks, in an effort to pave the way for vehicular parking - one of the City's largest pieces of land-use.	2/19/2020 11:50 AM
70	Enough of the park is dedicated to cars. They treat the park roads like a highway. Please don't pave over more of the park.	2/19/2020 11:40 AM
71	The park needs more transit. There's usually plenty of parking; signs to other areas with parking could help when the pool is busy. We need the green space more.	2/19/2020 11:30 AM
72	This is an historic park that does not need any more pavement installed. Baltimore is entirely too dependent on cars, and we must be promoting greener, more accessible ways of getting around.	2/19/2020 11:24 AM
73	There is plenty of parking at Druid along the street, and at Stieff silver, just a 6 minute walk or so away. We should be encouraging more folks to walk and bike and take transit to recreation. Further, building a parking lot would contribute to further degradation of our natural environment- more runoff, reduced carbon absorption, etc.	2/19/2020 11:02 AM
74	I think the addition of even more parking will make the experience of Druid Hill noticeably worse. It is a PARK, we should be maximizing green space! 1/3 of the city doesn't even have access to a car, and we have a horrible childhood asthma issue which stems from cars! Work with DOT to increase public transportation options to the park, invest in a shuttle that brings folks to different parts of the park (like it used to have!) build more bike paths from different parts of the city, make this a park that everyone can access and enjoy!	2/19/2020 11:01 AM
75	Please don't build more parking. Instead, please work to make the park more accessible by working with the bus system to add stops and working to make it easier and safer to cross into Druid Hill park on foot and bicycle.	2/19/2020 10:59 AM
76	When I go to the pool or use the park in the summer, the majority of users I see are children. They are usually attending with a summer camp or group of children vs. their families. Additional people I see use the pool with some regularity are seniors. I think if the goal is to attract more people from across the city to use the pool I don't think parking is the lever. I believe high quality programs and better marketing will attract more people and people find a way to park. If folks are looking to use a city pool, I'm not convinced a renovation will be enough for them to travel out of their neighborhood--especially ones with easy access to a pool.	2/19/2020 10:40 AM
77	Stop paving over green space.	2/19/2020 10:36 AM
78	Please do not pave over green space in one of the country's most famous parks. Creating more space for cars will only take us backwards as a city and society, and takes money away from	2/19/2020 10:33 AM

Druid Hill Park Pool Project: Community Feedback

the large percentage of residents in the city who don't own a car. We should incentivize public transportation to the pool, not driving to the pool.

79	Cars don't belong in parks	2/19/2020 10:32 AM
80	There is no need for a parking lot. More cars in the park will make it a less safe and worse experience for all users of the park. There is more than enough parking already. Spend the money on something that matters.	2/19/2020 10:30 AM
81	More cars and noise and pollution will make the park worse	2/19/2020 10:30 AM
82	There is plenty of parking already. Adding a parking lot will increase traffic and put kids at risk of getting hit by a car.	2/19/2020 10:21 AM
83	The prominence of car culture has been my single biggest negative experience about moving to Baltimore. Building more parking -- especially within greenspace like the park -- only facilitates this unsustainable practice. You have underused parking spaces just across I-83. Use the existing close-in parking for accessible parking, encourage transit and biking to the pool, and utilize the existing impervious cover just across the highway for those who choose to drive. Don't desecrate the park.	2/19/2020 10:19 AM
84	An additional parking lot would be a profoundly bad development for the park. Would make me less likely to go all around.	2/19/2020 10:16 AM
85	Please don't encourage more people to drive to (and through!) the park! We should encourage the public to shift to walking, biking or using public transit when going to the park and the design should reflect that. I'd much rather increase bus service to the area and use the space intended for a parking lot for more green space!	2/19/2020 9:52 AM
86	Parks are for people, not cars. Please do not remove green space from the park, especially to make it "easier" for cars to use it. Cars are already a menace on the park roads and anything that encourages people to use them will make their dangerous driving worse. Perhaps add a shuttle from mondawmin to facilitate greater access.	2/19/2020 9:50 AM
87	Don't build parking in parks.	2/19/2020 9:42 AM
88	If you are going to create a parking lot, please do not take away green space from the existing park area. Especially if it will disturb Oriole nesting habitats.	2/19/2020 9:28 AM
89	Parking is always an issue at the pool on busy days. Especially when dealing with family meme era with access issues.	2/19/2020 9:00 AM
90	As long as no trees are cut, a parking lot is a good idea.	2/19/2020 8:15 AM
91	While I often bike to the pool, I also drive to locations near the pool (walking paths, gardens, tennis courts, etc.) There is plenty of parking at all times, even during peak pool times (hot sunny days). A parking lot, especially one that is not designed to fit with nature, would have a negative impact on my enjoyment of the park, one of my favorite places in all of Baltimore.	2/18/2020 8:10 PM
92	There is parking on park roads near the pool	2/18/2020 8:09 PM
93	You should not be paving over anything else in the park. Ripping out all the old growth trees around the reservoir was enough of a travesty	2/18/2020 7:08 PM
94	I don't use the pool, but i walk, hike and bike through Druid Hill park. It seems there is plenty of parking available along streets where a parking lot is not needed. I oppose a parking lot until several options are shared and discussed with the community at large.	2/18/2020 5:58 PM
95	What other options were considered part of the Expansion?	2/18/2020 5:32 PM
96	Parks should be green spaces not paved spaces! Please preserve our park and not add to the climate problem!	2/18/2020 4:51 PM
